

Products for Purifiers

Under the brand SEFAR NYTAL we offer a comprehensive range of fabrics specifically for purifiers. Our open-mesh polyester fabrics are available as ready-made products as well as roll goods.

Product Features

Fabric and fabrication solutions

With around 190 years experience in the manufacture of precision fabrics, Sefar offers market-leading fabric technology in the milling industry – from yarn to fabric, precisely tuned for each type of purifier. The range includes PET, PA fabrics for efficient screening in all stages of your process. All fabrics conform to current FDA and EU regulations.

Connector sleeves

Connector sleeves from SEFAR **TETEX** MULTI fabrics provide permanent, secure and flexible connections between the screening machine and the inlets and outlets of plansifters or other purifiers and cleaning machines. These specifically-developed components ensure a precise fit to the connection. Connector sleeves that comply

with food-product standards and regulations can be produced on request.

Accessories

Sefar also offers a wide range of accessories to help your Sefar fabrics perform their best. For example, the use of SEFAR Pneumapp 2 stretching tables and SEFAR Tensocheck 100-R and Quicktal adhesives ensure optimal stretching of your screen. A large selection of screen cleaners ensures consistently high throughput. Furthermore, you can also find a wide variety of other helpful tools.
